Fees for the processing of the FLEGT licences

*88 Do importers need to pay fees for the processing of the FLEGT licences?

- Yes
 No

Other Implementing measures

92 Please provide feedback on your collaboration with other CAs and the European Commission.

There is regular contact between CA's and with the commission to coordinate on issues and clarify certain cases.

93 Please provide any other information, implementing measures or open issues that you consider that may be of interest to other Member States and/or the Commission.

Users can attach files and URLs to this question.

Customs has run a profile on the use of Y057. The correct use of this code was checked in a number of cases and in some instances this led to a new Customs declarations and the presentation of a valid FLEGT licence. In some cases the use of Y057 was correct.

Also the use of the correct HS codes and the match between codes used in Indonesia and the EU remains an issue we keep working on.

Reasons for the licences received by the NVWA and licences cleared by customs not totally matching are:

- End of year trade
- Storage in a customs warehouse
- Monthly declarants, these are attached in an excel file (GPA)

Access to SILK for all destination countries, instead just for licences destined for the Netherlands would be an improvement.

Then number (100) mentioned in question 81 is an estimation. We do not register how often we do additional checks on licences or declarations.

Importers have the possibility to do a quarterly declaration instead of per shipment. This data is included below.
